

Superior Solutions

## Axial spray paint

- Marking of dividing lines, arrows, borders, street curbs.
- General road markings.
- Quick usage, excellent result, visible for a very long time.
- The Markotrace marker is used, which facilitates change of colour even in course of the operation.
- Does not require mixing.
- Paint with strong pigmentation.
- High resistance to ultraviolet rays, bad weather and traffic.
- Suitable for interior and exterior use.
- Used bottom-up.
- Dries quickly and leave a crisp, sharp painted edge with the minimum of feathering.
- Can be applied over most surfaces including existing coatings, tarmacadam, concrete, wood and bituminous surfaces.
- Colours: black, blue, green, red, white and yellow.

### INSTRUCTIONS FOR USE

Applied to a dry and clean surface.

Remove any dust from the surface and degrease it.

Properly shake the spray for 3 minutes before use.

#### Apply with the Markotrace device

Insert the spray with MARKOPOINT into the base of the Markotrace machine and check whether its cap is properly set.

Spray using the handlebar and mark the surface by moving the machine forward slowly. Run over a porous surface twice.

#### Manual application

Hold the spray can bottom-up. Press the atomizer.

After use, clean the spray with atomizer up, to prevent clogging of the atomizer.

### PRECAUTIONS FOR USAGE

See the user instructions on the pack.

### CHARACTERISTICS

Contents: ± 500 ml.

Base: Acrylic resin

Coverage: ± 50 linear metres.

Dust-free environment: ± 15 minutes.

Dry: ± 30 minutes.

Hard: ± 16 hours.

Depends on the ambient temperature.
